“快特勵節能蒸箱 Quickly Energy-Saving Steamer”

超節能! 省時·省工·省瓦斯!

Super Super-Energy Saving!
Time Saving, Labor Saving, Gas Saving!

蒸食 • Steaming Food
發酵 • Fermentation
保溫 • Thermal Insulation

榮獲世界多國專利及台灣多項新型專利
專利在案，仿冒必究

Our products have the honor to obtain many
global patents affirmation. Copyright protected.

“ 超節能!省時、省工、省瓦斯! ”

Super Super-Energy Saving!
Time Saving, Labor Saving, Gas Saving!

關於我們 \

本公司成立於1985年，為專業商用不鏽鋼蒸櫃及保溫箱製造及出口廠商。秉持著30餘年的專業經驗，我們提供客戶CE品質認證、設計新穎及獨家專利之產品，使客戶生產出外型美觀、口味獨特之產品，進而提升市場競爭力，達到主顧雙贏目的。

為了提供客戶更完善的服務，本公司自2008年起，擴增產品線並提供相關食品生產Know-How，及相關整廠生產設備提供及諮詢。

產品介紹 \

專利設計，英國國家CE認證，品質優越，功能最齊全。特製大把手，特大型後鈕，蒸氣不外洩，可定時、定溫、蒸食、發酵、殺菌之用。外箱與內箱中間保溫壁10公分厚，保溫效果佳，外箱不發熱。設有自動加水箱，水位太低或太高會自動警示及水位透視玻璃裝置，不會有加水麻煩，特設煮水器，使其加熱特快，水常溫3分鐘即可煮沸，從常溫至90°C氣化只需6分多鐘。

特設有減音器及蒸氣減壓閥，蒸氣量特大，熱度提高，使其熱度分佈平均，絕無死角，使蒸物上下均勻，絕不滴水，使蒸物保持最佳狀態。內壁設有傳統式，古早味、木板、竹片、葉片構造，能保持蒸櫃內部最佳濕度，及產生古早味的香醇，使蒸物表皮不會乾皮。

瓦斯比一般傳統式節省，節約能源又省錢，蒸煮時間比一般傳統式快。蒸櫃門採用耐高溫安全玻璃，蒸煮過程中能清楚看到蒸物過程，透明度極佳，容量特大，蒸物層層排列不浪費空間，提高您省時、省工、省瓦斯。高效率又賺錢之利器，不鏽鋼製成，美觀耐用，容易清潔。

不是鍋爐，絕無危險。專業製造，品質保證，深受海內外使用者好評，提供不同尺寸訂製，給顧客最滿意的需求。歡迎內外銷合作。

適用範圍 \

舉凡蒸籠、蒸箱能蒸的產品，本產品皆可取代之。傳統式蒸籠、蒸箱蒸出來不美的產品，我們幫您完成，如：米飯類、穀類、餐點類、糕點類、糰類、魚肉類、素食...等食品，解決高筋麵粉包子、饅頭蒸出時會縮及皺紋的難題，能使麵皮較白、較亮、較大，口感更佳。

About Us \

Yuan Jaan Machinery Factory Co., Ltd. (Quickly Food Machinery Co., Ltd.) was established in 1985. We are a professional manufacturer and exporter of commercial stainless steel kitchen equipment of steamer and warmer! With more than 30 years professional experience in this field we afford CE approval, innovative designed and unique patented products to help

our customers be competitive in the market and gain a good reputation for using our machine to cook the foods with good looking and delicious taste. Since 2008 we extend our product line to meet our customer need and afford production know-how as well as turnkey service.

Introduction \

A patent-protected, validate by England CE mark, high quality, innovative steamer with multifunction equipped with enlarged handles and reinforced hinges for trouble free daily operations and causing no steam leakage, being instruments and switches controlled, the steaming time and temperature can be preset activate and alarm signals, in addition, this steamer is excellent for leavening, steam cooking and disinfections. There is a 10 cm thermo-insulation layer between the casings and inner wall. That's highly efficiency to keep warm inside and no heat outside the casing. Furthermore, the unit is with an auto water-feeding tank that eliminates the chore adding water. Water too low or too high, there will be an alarm. The auto water-feeding tank is equipped with glass view to enable you to inspect the water level. Beside, the evaporator equipped in the unit expedites the heating dramatically-it takes only 3 minutes to reach boiling phase and only 6 minutes to heat water from room temp to 90°C.

This unit is equipped with a silencer/muffler and an adjustable humidity control. The steaming chamber with a secondary steaming structure can generate maximum volume of steam, heating up rapidly without dripping the steam sprayed out flow upwards spiral thus the steam is evenly

distributed in the chamber without any blind corners to assure the food is keeping at the best steaming condition. The inner wall is design as the traditional type-made by wood, bamboo and bamboo-leaf style construction-keeping the inner at the best moisture condition that can making foods have the traditional flavor and no dry-surface on the food.

Compared to a conventional one, this steamer is an amazing gas-saver, thus it is energy and cost saving. The time of boiling will be shorter than the conventional one. The steamer door is made of high temperature resistant clear glass, therefore the entire course of steaming is visualized anytime. Extra large spaces created by the stainless steel multi-shelves save your space, labor, cost and high efficiency that work as your moneymaker. It is attractive in appearance, easy to clean and gives extended service life.

This is a real steamer rather than a boiler and it is built by our experts' tremendous experience, thus quality assured. Tailor-made steamers are available upon request to meet your maximum satisfaction. We are welcome to cooperate with any domestic and abroad sale agents.

Applied Products \

Our steamer cabinet can replace all the traditional bamboo steamers for steaming the food. Such as rice, grains, meals, dumpings, siopao, rice cake, fish, meat, vegetarian food... etc. The abnormal shape problem of foods caused by traditional steamers can be solved by ours. It's specialized

in solving the surface corrugation and contraction problem of high gluten Chinese bun and made it bigger, more glossy and more delicious than the traditional steamers do.
